EDUCATION

University of Helsinki '24

Helsinki, Finland

Aug '22 – Current

- **Degree:** M.S. in Data Science; GPA: 5/5 in-major; 4.8 overall
- **Courses:** AI, Advanced Machine Learning, Deep learning, Statistics, AI Ethics, Data AI and Inequality, Gender Family & Inequality, Sociology of Migration
- **Projects:** [Visualizing deaths of migrants at borders \(link\)](#)

Massachusetts Institute of Technology '19

Cambridge, MA, USA

Aug '15 – Jun '19

- **Degree:** B.S. in Mathematics with Computer Science, GPA: 4.4/5.0
- **Courses:** AI, ML, Algorithms, Probability & Random Variables, Logic, Theory of Computation
- **Societies:** Sigma Kappa Sorority, Mujeres Latinas (President), La Casa (President)

RESEARCH

FLUX Consortium, Research Assistant

Jan '23 - Current

Helsinki, Finland

- Studying how first union formation and longevity in Finland is impacted by inter-generational immigrant origin characteristics of both partners (1st, 2nd, 2.5 generation)
- Help out with various coding-related tasks in Python, Stata, or Github

U. de Santiago Center of Mathematical Modeling, Researcher

Jun – Aug '16

Santiago, Chile

- Visualized pollution patterns to understand the impact on the city and people of Santiago.
- Modeled waste particulate travel patterns originating from nearby waste treatment by analyzing daily changes in pollution and weather using Matlab, Python, and CalPUFF.
- Advised by Dr. Axel Ossos.

MIT Synoptic Laboratory, Research Assistant

Jan – June '16

Cambridge, MA

- Programmed real-time visualizations of Cambridge climate patterns for graduate courses. in the Earth, Atmospheric and Planetary Sciences department under Dr. Lodovica Illari
- Analyzed open-source Cambridge climate data to extract information on theta and zonal winds.

California State University Bakersfield, Researcher

Jun – Aug '13

Bakersfield, CA, USA

- Reconstructed the paleoclimate of the Oregon region by testing soil core samples.
- Sampled, interpreted, and presented the bulk grain size and carbon-nitrogen ratio data to identify pockets of the plant *C. Lacustris*, which only lives in extreme cold-weather climates.
- Advised by Dr. Robert Negrini, and published our work in the J. of Paleolimnology: [A Great Basin lake-level response to 38-34 ka Dansgaard-Oeschger oscillations.](#)

PROFESSIONAL EXPERIENCE

Duolingo, Data Science Intern

May – Aug '23

- Improved Duolingo's global new and existing user engagement forecasting model by 3.4%
- Introduced novel way to evaluate accuracy on 4 regional and the global model
- Identified improvements to accuracy based on holiday incorporation and implemented them

Capital One Bank, Full Time

Senior Software Engineer (Promoted)

Jul '21 – Current

SF, CA, USA

- Saved ~15% on infrastructure and computing cost by migrating a deployment Java app to a serverless application. Utilized AWS Lambda, S3, and CloudFormation.
- Automated production deployments with a Bogie-Managed Jenkins Pipeline.

Software Engineer

Feb '20 – Jul '21

SF, CA, USA

- Saved 10+ hours weekly of developer time by integrating all Core Banking tests into a single test suite to auto-run on an hourly cadence. Results then auto-post to Slack for visibility.
- Led a team of 6 employees to migrate web component from Angular-to-LitElement. Managed weekly office hours. Utilized a Jenkins pipeline, Storybook demoing, and Cypress, Mocha testing.

Ministry of Education: Government of Sierra Leone, Software Engineer Intern

Oct – Dec '19

Freetown, SL

- Digitized the application for public school teachers to replace the original paper-based system by designing, building, and deploying the first ever applicant portal.
- Delivered bi-weekly technical presentations to the 30 highest gov't officials (equivalent to the Department of Education) and reported directly to the Minister of Education Dr. David Sengh.
- Received a return offer to continue managing the project for the government.

TEACHING

Capital One Coders, Software Instructor - Working weekly with 1-3 students to craft and develop personal websites on glitch.io. - Teaching topics such as CSS, HTML, Javascript, and Design.	Feb '19 – Current SF, CA
Tech2Peace, Software Instructor - Facilitated the relationship between young Palestinians and Israelis as the only neutral person in the program. Designed and taught an introductory Python Programming course. - Mentored 20 students to develop exciting individual final projects and presentations.	Aug – Oct '19 Nazareth, Israel
MIT Mathematics Department, Tutor & Grader - Tutored in the math tutoring center covering Real Analysis, Diff. Equations, Lin. Algebra, etc. - Graded for Linear Algebra, a special opportunity only granted to students that receive an A.	Jun '17 – Jun '19 Cambridge, MA
ISASA: MIT-Africa Initiative, CS Instructor - Piloted MIT's first South Africa program, teaching 3 week-long high school courses. - Focused 6-hour day curriculum on introductory Python and Functional Programming. - Gave final tech-focused presentations to 300+ students at the end of each course.	Jan – Feb '18 South Africa
MIT Office of Minority Education, Mathematics Instructor - Taught 40 incoming undergrads Multivariable Calculus with daily lecture and office hours. - Advised incoming students on their first year coursework as a residential facilitator.	June – Aug '17 Cambridge, MA
IIS G. Falcone High School, Mathematics and MATLAB Instructor - Taught 50 students Pre-Algebra and MATLAB, with daily lecture and weekly office hours. - Gave 2 500-student presentations on Engineering and education at MIT.	Jan – Feb '17 Asola, Italy

LEADERSHIP

MIT's Office of Minority Education's E-Mentor Partnership Program, Mentor Working with minority MIT undergraduate students in year long professional mentoring.	Aug '22 – Current Remote
MIT Pi Reunion Committee, Chair Organizing the MIT Classes of 2017-19 reunion on a 10-person committee for 1,500+ attendees.	Oct '21 – Jul '22 Remote
MIT Spanish House, President - Managed a \$50,000 budget. Led a 5-officer committee for a 30-student living group. - Led meetings and organization of the semi-annual \$5,000 out-of-state retreat.	Jan – Dec '18 Cambridge, MA
MIT Undergraduate Association, Chief Officer on Diversity - Represented a student body of 1,000+ students as 1 of 5 officers leading the association. - Fundraised \$100,000 to fly in accepted MIT students from disadvantaged Latinx communities. - Collaborating with departments and students to lead development of the program.	Sep '17 – Jun '18 Cambridge, MA
MIT Mujeres Latinas, President - Served as President for the empowerment group, growing our attendance by 300%. - Organized 3 fundraisers, donating \$5,000 in proceeds to local Cambridge domestic shelters.	Jan – Jun '18 Cambridge, MA

TECHNICAL CERTIFICATES & SKILLS

Certificates:

- Amazon Web Services (AWS) Certified Developer Associate (Issued 05/21)
- Certified Secure Software Engineer (Issued 03/20)

Relevant Skills:

- Programming Languages:** Stata, Python, R, Typescript, GoLang, Javascript, HTML, CSS, SCSS, MATLAB, Bash
- Tools:** AWS, Excel, Jupyter Notebook, RStudio, Pandas, Numpy, SciKitLearn, Jenkins, Splunk, GIT

ADDITIONAL

Languages: English (Native), Spanish (fluent), Polish (conversational)

Interests: Reading Nonfiction (average 30+ books/year), Oil painting, Running
